Two Blocks North of Montana Street

Three Blocks West of Lincoln Avenue

PLEASE NOTE!

In this our latest general list, we are instituting a new system in regard to the listing of prices.

In the left hand column—marked "Net"—are listed the prices you pay for the different items. In the right hand column—marked "Retail"—are listed our retail prices for the items.

We are sure you will find this new feature quite useful, particularly as it affects new or unusual plants—the retail prices of which you may not know. At a glance you will know both the cost to you and the retail price.

NOTE!

Nearly twenty years of experience have gone into the plants listed here. No labor or expense has been spared to grow the finest plants that can be grown.

Not a day goes by but we are complimented on the orderliness of our nursery and the healthy appearance and wide variety of our stock.

The fact that you do not find certain plants listed here does not necessarily mean we do not grow them. We grow many varieties of plants—in small quantities—that are not listed here.

If you have not visited our two acre sales yard you have missed one of the sights of Southern California.

Each year we issue two special lists:

Perennial List—an illustrated booklet that describes over 250 varieties of perennials and herbs. It is ready for mailing about Oct. 10.

Rose List—Each variety of rose described and many illustrated in accurate colors. Ready January 10.

Any or all of these lists will be mailed to you free of charge upon request.

Prices subject to change without notice.

We guarantee plants purchased from us to be true to name and will replace any that may be otherwise but it is mutually understood and agreed between the purchasers and ourselves that we will at no time be liable for an amount in excess of the original purchase price.
